A screenshot of a web browser displaying a restaurant website. The title bar shows 'Restaurant Website' and the file path 'C:/Users/Shree/Desktop/Restuarant%20Website/Frontend/Menu.html'. The page features a black header with an orange logo on the left and navigation links: ABOUT, RESERVATION, MENU, RECIPES BY CHEF, and CAREERS. Below the header is a section titled 'Contact' with four entries for 'Branch 1', 'Branch 2', 'Branch 3', and 'Branch 4', each providing a phone number, address, and city/state. At the bottom of the page are links for 'Home', 'Address', 'Youtube Channel', and 'Give Us Feedback', followed by the copyright notice 'Gandhinagar Bites © 2024'.

FreeRecipes:

Dynamically Recipes by Restaurant from the database are shown in card form on the website with their YouTube preview.

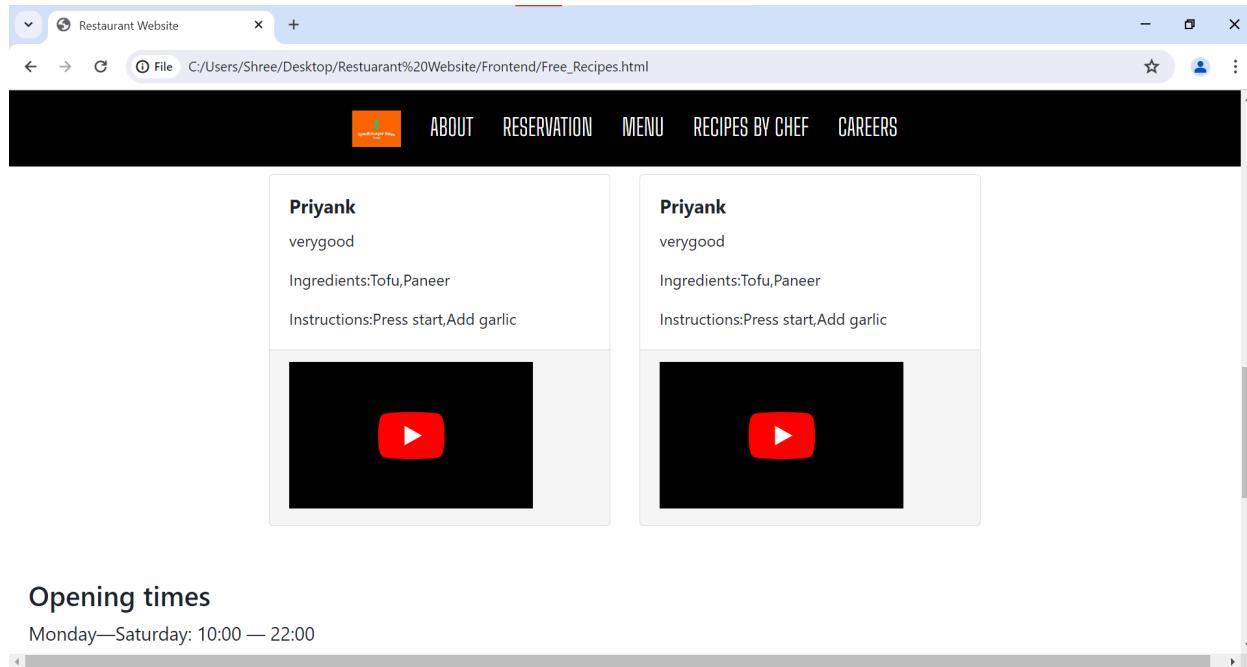

A screenshot of the website displaying three recipe cards in a grid:

- Priyank**
verygood
Ingredients:Tofu,Paneer
Instructions:Press start,Add garlic
- Priyank2**
verygood2
Ingredients:Tofu,Paneer
Instructions:
- Priyank2**
verygood2
Ingredients:Tofu,Paneer
Instructions:Press start,Add garlic

The bottom section shows two more cards partially visible:

- Priyank**
verygood
- Priyank**
verygood

Server working properly and data is getting fetched successfully.

The screenshot shows the Postman interface with a successful API call to `localhost:3000/recipes`. The response status is `200 OK`, size is `1.27 KB`, and time is `12 ms`. The response body is a JSON object representing a recipe:

```
8   "Paneer"
